- General:** If you feel unwell, seek medical attention (show the label or this MSDS if possible). Ensure that medical personnel are aware of the material(s) involved.
- Skin Contact:** Remove all contaminated clothing, jewelry, and shoes. Remove contaminated clothing and wash before reuse. Wash affected area with soap or mild detergent and running water for at least 15 minutes. If irritation develops, get medical attention.
- Eye Contact:** Flush immediately with water for at least 15 minutes, occasionally lifting upper and lower lids to be sure rinsing is complete. Get medical attention.
- Inhalation:** Move to fresh air. Obtain medical attention if cough or other respiratory symptoms develop.
- Ingestion:** **DO NOT INDUCE VOMITING.** If conscious, drink water or milk of magnesia. Do not give anything by mouth to an unconscious person. Get medical attention.

5. FIRE FIGHTING MEASURES

Flash point	Not applicable. Will not burn
Flammable Limits (Lower)	Not applicable
Flammable Limits (Upper)	Not applicable
Auto Ignition Temperature	Not applicable
Combustion and Thermal Decomposition Products	Hydrogen chloride may be released in a fire. Aluminum oxide and oxides of sulfur.

Spills, Leaks, or Release:

- **Restrict access** until clean-up operations are complete. Wear appropriate Personal Protective Equipment per Section 8. Ensure trained personnel conduct clean up and wear Personal Protective Equipment per Section 8.
- **Stop discharge if possible.** Avoid personal risk.
- **Notify Authorities** if release exceeds reportable quantity per Section 15
- **Small Spills** – Absorb spill with clay or dry material and collect in appropriate container for disposal.
- **Large Spills** – Prevent entry into sewers and confined areas. Dike, if possible. Keep unnecessary people away, isolate area and deny entry. Collect in appropriate container for disposal.
- **Neutralize spill residuals** carefully with lime, limestone, or soda ash and collect in a suitable container for disposal. Flush area with water. Notify the appropriate environmental authorities.

7. HANDLING AND STORAGE

Handling: Handle all chemicals with respect. Review the label, this MSDS and any other applicable information before use. Keep separated from incompatible substances. Use appropriate Personal Protective Equipment per Section 8. Handle only with equipment, materials and supplies specified by their manufacturer as being compatible and appropriate for use with this product.

Storage: Material may be stored in tightly closed shipping containers, preferably the supplier's containers. Containers of this material may be hazardous when empty, since they retain product residues (vapors, liquid); observe all warnings and precautions listed for the product. Do not use metal containers.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Preventive Measures:

Engineering Controls: There should be enough local ventilation to circulate air. Ensure that eyewash station and safety showers are proximal to the workstation location.

Personal Protection Equipment:

Eye Protection: Wear splash resistant chemical goggles and, where splashing is possible, a full face shield. Maintain eye wash fountain and quick-drench facilities in work area.

Skin Protection: Wear impervious protective clothing, including boots, gloves, lab coat, apron or coveralls, as appropriate, to avoid skin contact.

Recommended Protective Material: Neoprene, Never use leather.

Respiratory Protection: Consider respirator warning properties before use.

- With limited contact use an appropriate chemical cartridge respirator with acid gas cartridge(s)
- When cleaning, decontaminating or performing maintenance on tanks, containers, piping systems and accessories, and in any other situations where airborne
